

*Students must be Active Army (AA) or Reserve Component (RC) officers with actual or an anticipated special assignment as an Air and Missile Defense Officer and student must be a graduate from the Basic Officer Leader Course- A (commissioning/appointment source), Department of Defense civilian personnel requiring PATRIOT training to perform assigned duties involving the PATRIOT Air Defense Missile System. Students must possess a U.S. SECRET security clearance to attend this course. Foreign Military Students attending this course must possess a U.S. equivalent secret security clearance, awarded by their home government for this course of instruction. The security clearance granted by the home government of itself does not authorize the disclosure of classified U.S. information. Official U.S. foreign disclosure regulations and directives must specifically authorize such disclosure. Foreign Military Students will not be allowed to attend the nine week technical portion of this course. They can attend the first Seven weeks of core training specific to Modules A, B, and C.*
