

## **BASIC OFFICER LEADER COURSE B**

### **MANDATORY TRAINING**

# AIR DEFENSE ARTILLERY

## Introduction:

Each year the Army directs all Soldiers regardless of rank to complete on-line training courses regarding Soldier safety and Department of Defense (DOD) computer usage.

These courses were designed to give the student a better understanding of Army safety and DOD computer usage policies and procedures.

On the following slides you will find the on-line mandatory courses listed and web links to the various websites which will allow you to complete Army mandatory training requirements and print out the course completion certificates.

Additionally, on the bottom of this page you will see a link to additional training material. While this training is not part of the Army's mandatory on-line training courses, it is highly recommended that you familiarize yourself with this material.

If you have any problems or questions about any of this material, feel free to contact any member of the BOLC III team.
