However, mission unique support and support provided above the normal standard level will be reimbursable; other exceptions are identified in the specific provisions. The reimbursement policy for this agreement is based upon historical practices.

SF 1080 shall cite this SA number and DODAAC M68531 or unit identification code (UIC) W34N59 and will have appropriate accountable documents attached.

8. Supplier will provide confinement services IAW service-level SAs. Receiver must negotiate separately with DFAS, MEDDAC/DENTAC, and DeCA for finance and accounting services, medical supplies/maintenance and health services, and commissary services respectively.

9. Unless stated otherwise in the specific provisions; services provided will be comparable in kind, quality, and scope to those furnished to the Supplier's own activities (standard level of support) and will be provided within available capabilities and resources. Above-standard level of support and mission unique support are annotated with asterisks (\*\*\*) in the specific provisions.

10. Receiver shall comply with Supplier's policy, procedures, and regulations that apply to the services provided and financial arrangements made. Receiver shall also provide data as requested by the Supplier to review and update all costs annually. Receiver is responsible for categories of support not listed in this agreement until negotiated with and approved by the Supplier to be provided.

11. Supplier will not change, reduce, or terminate the agreement unilaterally without giving sufficient advance notice to the Receiver.

a. When possible, both parties shall effect significant changes to support provided by giving sufficient advance notice to the other to allow appropriate funding adjustments to be made during the budget formulation process (at least 180 days). Minor changes may be made by pen and ink or by attaching a memorandum; these changes must be initialed by both parties.

b. Supplier reserves the right to reduce/terminate support based on customer demand and will apply any reductions in support on an equitable basis to all receivers of support.

c. If this agreement is unilaterally terminated with less than 180 days prior notice to the other party, the terminating party may be billed by the non-terminating party for reimbursement of unavoidable termination and reprocurement expenses incurred during the 180-day period following notification.

**MEMORANDUM OF UNDERSTANDING  
BETWEEN  
THE U.S. ARMY TRAINING AND DOCTRINE COMMAND  
AND  
THE U.S. MARINE CORPS COMBAT DEVELOPMENT COMMAND**

**SUBJECT: TRADOC/MCCDC Memorandum of Understanding**

- 1. Purpose.** The U.S. Army Training and Doctrine Command (TRADOC) and the U.S. Marine Corps Combat Development Command (MCCDC) will exchange information and cooperate to accomplish command initiatives throughout the realms of doctrine, training, leader development/education, materiel and organizational development, and soldier/marine enhancement.
- 2. Reference.** CG TRADOC and staff visited CG MCCDC and staff on 19 May 1993. GEN Franks and LTG Krulak agreed to cooperate in a variety of areas of mutual interest to both commands.
- 3. Challenge.** Given the complementary nature of work done by TRADOC and MCCDC, both commands will share information and assist one another in all mission areas. This will ensure that resources are not employed against redundant requirements and that Army and Marine Corps warfare systems reinforce each other on future battlefields.
- 4. Scope.** All related TRADOC and MCCDC initiatives designed to lead their services through intellectual change, sustain excellence and relevance in training and education, and enhance modernization alternatives to maintain the technological edge on future battlefields are subject to this agreement. Direct coordination at all levels of TRADOC and MCCDC is authorized and encouraged.
- 5. Understandings, agreements, support, and resource needs.**
  - a.** TRADOC and MCCDC centers and schools engaged in work on digital communications technology, source-data automation, split-based logistics operations, and other joint automation initiatives will add counterparts at the other headquarters to distribution lists for information related to ongoing projects.
  - b.** TRADOC and MCCDC will establish a joint working group to clarify requirements for compatible, computer-driven simulations that will replicate the land-air-sea fight with fidelity and ensure that Army and Marine Corps investments in simulations technology are relevant to each other's needs.

c. TRADOC and MCCDC administrators for the Soldier and Marine Enhancement Programs will establish formal coordination arrangements for capabilities that apply to both the soldier/marine as a system.

d. TRADOC and MCCDC combat developers will coordinate in development of Joint Close Air Support (JGAS) tactics, techniques and procedures (TTP), and will exchange information on lessons learned from Service and joint training exercises, wargames, and DOD modeling and simulation initiatives. Initial actions will include participation in the Multi-Service Distributed Training Test Bed and in Advanced Warfighting Demonstrations.

e. TRADOC and MCCDC will continue coordination of combat identification activities to reduce the risk of fratricide. Coordination will be maintained in development of doctrine, training, and materiel requirements to ensure interoperability of friend identification techniques and devices.

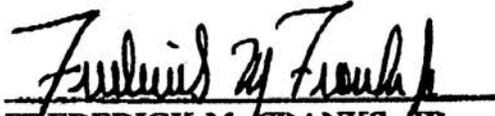

f. TRADOC will invite MCCDC to accompany TRADOC CINC Support Team on visits to warfighting CINCs in order to identify CINC requirements that can be expedited jointly by TRADOC and MCCDC.

g. TRADOC and MCCDC will include Service-related input provided by each command in simulation scenario development in order to accurately represent the capabilities of each Service in all models and simulations.
