C.W. BILL YOUNG / DEPARTMENT OF DEFENSE MARROW DONOR PROGRAM

**Marrow
Program**

I'm looking for my match! Just like thousands of patients who are waiting to find an unrelated bone marrow donor so that we can receive a lifesaving marrow transplant. You could be the match! What I originally thought was just low blood iron was diagnosed as an extremely rare bone marrow disorder called Myelofibrosis. Right now, the only cure in sight is a bone marrow transplant. My only sibling is not a compatible donor match for me...this means I need YOU. As a wife and mother of three amazing children who fill my heart with joy every day I have a lot of great reasons to get healthy. God has surrounded me with friends and family who are willing to stand with me in prayer through this journey in my life. I am blessed beyond measure! Please consider joining the bone marrow registry.

You Could be her bone marrow match!!
Please take a moment and give... *"The Gift of Life."*
