Reminder SAAS-MOD SCP 11 Conversion

- 1. The Fort Sill Ammunition Supply Point will be undergoing conversion to SAAS-MOD SCP 11 from 26 Oct 17 to 3 Nov 17. During this time period only limited manual issues/draws will be supportable.**
- 2. The major change in this SCP that may potentially impact users is that SAAS-MOD will be implementing a DODAAC and UIC validation procedure. When TAMIS sends a DA Form 581 to SAAS-MOD the first step SAAS-MOD will do is validate the DODAAC and UIC against LIW. If there is any type error with the DODAAC and/or the UIC then SAAS-MOD will automatically reject the DA Form 581 and will not forward it to the ASP for issuing.**
- 3. To ensure units' training programs are not impacted, it is incumbent upon units to verify their DODAACs and UICs now and make any necessary corrections or changes prior to this SAAS-MOD conversion.**
- 4. ASP POC reference this conversion is the ASP Foreman at 580-442-5620. The supporting DODAAC Coordinator is Mr. James Gray at james.l.gray14.ctr@mail.mil**
